Course Overview

SAP MM (Materials Management) training covers end-to-end procurement and inventory management processes used by organisations to manage purchasing, vendors, goods movements, and stock. SAP MM integrates tightly with SAP FI/CO for financial postings and with SAP SD for the supply chain. This programme gives learners a comprehensive, hands-on understanding of how enterprise procurement and inventory workflows operate inside an SAP system.

Designed for procurement professionals, supply chain coordinators, inventory teams, and career changers — delivered live online by experienced SAP MM practitioners with real-world implementation backgrounds.

What You Get

S

Live SAP System Access

Practice in a real SAP environment

R

Session Recordings

Revisit every class at your own pace

T

Trainer Support

Direct WhatsApp access between sessions

Who This Course Is For

✓ Procurement Officers & Buyers

Understand how day-to-day purchasing connects to enterprise SAP workflows

✓ Supply Chain Coordinators

See the full picture from purchase requisition to goods receipt and payment

✓ Inventory & Warehouse Teams

Learn how stock management, movements, and valuations work inside SAP

✓ Project Team Members

Understand the MM module you will be configuring or testing on SAP projects

✓ SAP MM End Users

Build confident, structured understanding beyond trial-and-error system use

✓ Career Switchers

Enter SAP consulting through the high-demand procurement and supply chain track

Prerequisites & Training Method

PREREQUISITES

No prior SAP experience required. A basic understanding of supply chain or procurement processes is helpful. Basic computer skills are sufficient.

TRAINING METHOD

- Live instructor-led online sessions
- Weekday evenings & weekend batches
- 3-4 hours per session
- Live Q&A every session
